

QUALITY POLICY

SOGEFI GROUP designs, produces and delivers a comprehensive range of filtration systems, flexible suspension components as well as air management and engine cooling systems.

Through its strong commitment to research, SOGEFI GROUP continuously improves its components with technological developments across all product sectors, optimising performance in terms of life cycle, effectiveness, size, weight and environmental compatibility.

In this context, SOGEFI GROUP makes the following commitments.

- To ensure the health and safety of our customers and personnel.
- To comply with all legal, ethical, social and customer requirements as well as other voluntary requirements.
- To satisfy our customers with the quality of our products & services.
- To satisfy our stakeholder's needs.
- To continually improve the group in the pursuit of the above commitments. E.g. by the deployment of Quick Response Quality Control

These commitments are shared by the top management of SOGEFI GROUP, and must be understood and implemented by the personnel at all levels.

SOGEFI GROUP will review and update this Policy periodically to ensure that it remains relevant to the organization and compliant with with the latest regulations and standards.

Laurent Hebenstreit
Chief Executive Officer
